Yearly Web Maintenance + SEO Boost

After creating your website, it's essential to keep it active. The most effective method is to regularly publish blog posts. This not only keeps your customers engaged but also contributes to improving your SEO. Put more simply, by sharing SEO-optimized content, Google's search engines will recognize your website as relevant and place it higher in search results.

YEARLY WEB MAINTENANCE + SEO BOOST

- ✓ 2 SEO-optimized blog posts per month on a topic of choice (up to 2500 words in English or in French)
- ✓ Unlimited on-demand content updates (including blog posts, text, images - provided by the client)
- ✓ Yearly safety backup of website's files (databases, texts, and images)
- ✓ E-mail reminder before the expiration of domain name and hosting registration
- ✓ Ensuring that your website works properly and fixing technical issues

3000 €
YEARLY SERVICE

Me: Dear Santa, I've been a good girl, can I have more clients next year?

Santa: Yes, sweetheart, but only if you have an outstanding website and post more engaging, high quality content. And don't forget the Instagram reels!

- CHAT WITH SANTA, 2025

What our clients say

"I had an excellent experience collaborating with Barbara throughout the development of the brand identity and website for the ProVolley volleyball summer camp. As a recently launched volleyball academy for young boys and girls, a careful attention to detail was crucial to crafting a modern brand identity that aligns with our core values and communicates a professional image. Barbara adeptly translated these requirements into a website designed with mobile-friendly format, effectively presenting vital information in a straightforward and visually appealing manner. The website also serves as a user-friendly tool for participant registration. Also, as much as I am satisfied with the "technical" side of the work that Barbara did, I am even more satisfied with her professional but also extremely friendly approach that allows you to ask "stupid questions" without feeling dumb. She had ideas that helped us shape our vision and form amazing visual identity. Barbara thank you for your incredible enthusiasm about our "small" project which became big and recognized by the entire Croatian volleyball community thanks to associates like you!!!"

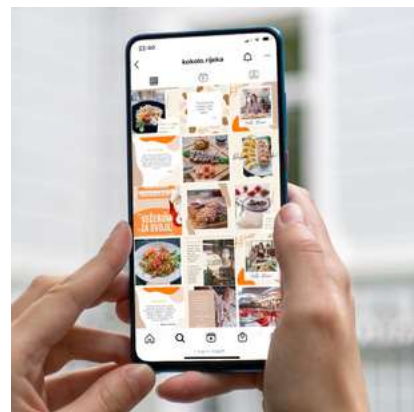

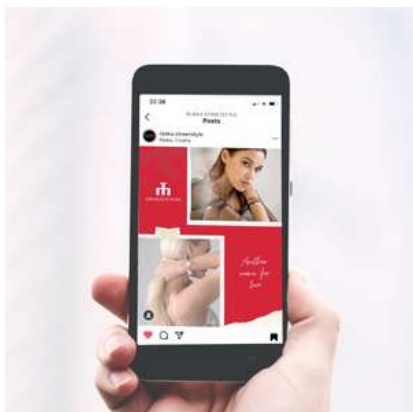

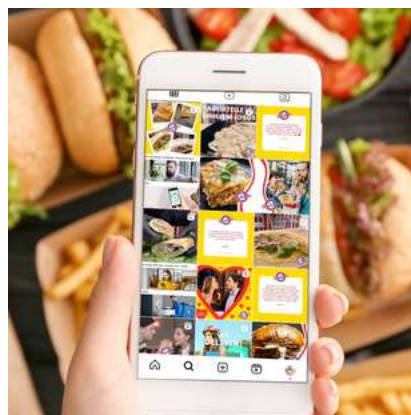

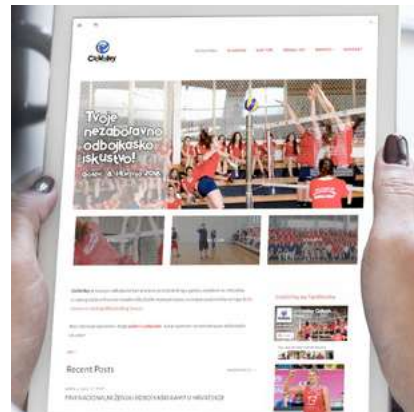

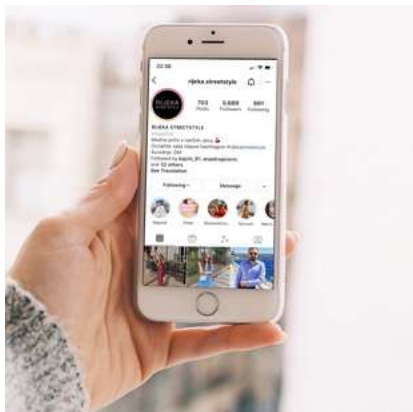

Tamara Sušić
FOUNDER, PROVOLLEY

"I am thrilled to express my utmost appreciation for the incredible work that Barbara Buljat Raymond has done in creating a captivating video highlighting the significance of whales and their vital role for humanity. As a dedicated NGO protecting the marine life, it is crucial for us to convey the message about the immense contributions whales make to our survival and the urgent need to protect them. Barbara produced an amazing video that not only educates but also inspires action. Her insightful approach and attention to detail were evident throughout the entire process. The impact of the video is to reach and engage a wide audience. We wholeheartedly recommend Barbara for her outstanding contribution to our cause. Her commitment to raising awareness about the importance of whales is truly commendable, and we are grateful for her invaluable support in spreading this crucial message. Thank you, Barbara, for an outstanding video that is sure to make a lasting impact on the conservation of these magnificent creatures."

FAQ's

How do I know which digital service is right for my brand?

Every brand is unique, and there is no one-size-fits-all marketing and communication strategy. Therefore, it is essential to begin with a thorough market analysis and address the following questions:

1. *Who is your target audience, which platforms do they use and how?*
2. *What channels do your competitors use, and are they achieving success with these channels in terms of high customer engagement?*

Answering these questions should clarify your objectives and needs. If you're interested in developing a comprehensive marketing strategy tailored to your company's needs, we would be happy to assist you.

How can I get more visibility on the Internet (website and social media)?

To enhance your online visibility, there are two primary approaches:

1. *Fast, Effective, But Short-Term: Paid Promotion.* Craft compelling ads and pay platforms like Google or Meta to display them to your target audience. The more you invest, the greater your visibility.
2. *A Slightly Slower, Yet More Sustainable Approach: Organic Reach.* Employ SEO-friendly techniques to your website, consistently share keyword-rich blog content, and publish engaging video content on your socials. For the best results, we suggest combining the two!

I am not in Europe, but I'm interested in your services. Can we still collaborate?

Sure we can. You can be based anywhere in the world and we can collaborate, as long as you don't need me for photo or video shooting.
